objective

I am a competent full stack developer with 4+ years of solid work experience designing and developing websites for agency clients. I am a creative person who can produce websites from concept to launch. Having a detailed understanding of best UX principles and Backend Development along with the SEO best practice, my websites are optimised to load fast, be responsive and be a pleasure to use. I have worked effectively both independently and as part of a team, and I am capable of being highly productive either way.

Skills

Admirable experience on PHP, MVC (Laravel, CI), API Integration

Keen and enthusiastic eye for design and development

Excellent understanding of UX using HTML, CSS, Bootstrap, JAVA SCRIPT, J Query

Experience developing custom-built
